SIS Competitive Gaming

Unlock the potential of the world's
fastest growing betting vertical

SIS Competitive Gaming

A market-leading esports betting product built specifically for sportsbooks, featuring **live head-to-head video game competitions on popular gaming titles** to appeal to both sports bettors and esports bettors.*

This innovative and proven product provides operators with 24/7 competitive gaming content, with up to **c150,000** live events each year. Operators will benefit from head-to-head matches taking place, offering markets and bet types that are familiar to current sports bettors and esports bettors.

SIS Competitive Gaming is supplied as an **end-to-end solution**, including live streamed pictures, commentary, on-screen graphics with betting triggers, data and a range of pre-event and in-play markets and prices.

*All participants are over 18.

New Short-Form Betting Content:

- Head-to-head competitions are broadcast live 24/7 with a minimum of 4 concurrent streams available at any one time.
- Live streamed competitions provide quick-fire short-form betting opportunities for sportsbooks globally.

Complete Betting Feed:

- Qualified experienced gamers: suitably matched for head-to-head markets, with a range of derivatives and betting markets.
- Player form based on historical and current player statistics.

Omni-Channel Solution

SIS Competitive Gaming is an omni-channel solution that delivers a high quality and engaging betting experience across retail, online and mobile.

Current games

CS:GO

Escoccer

Ebasketball

Other major esports coming soon.

SIS Competitive Gaming is a

high-integrity betting product.

Tournaments follow best practice outlined by the ESIC (*Esports Integrity Commission*) in addition to strict operational measures in place to ensure that each event is fair.

Each match is overseen by a dedicated integrity referee, who is ESIC trained, and they have a real-time link to SIS's expert trading team. As the events take place in a highly controlled environment, we are able to put robust player due diligence in place and suspend the matches and players whilst any investigations take place to ensure fair play.

Feedback from Bettors

SIS conducted extensive market research focusing on three groups: Sports bettors, casino players, and esports bettors. We wanted to create the best possible product that engaged bettors and helped drive revenues. The result - SIS Competitive Gaming, the first esports betting league built for our customers.

I've not seen anything like this before, but I like it...if this was on a major bookmaker's website, I'd definitely use it for sure.

David, sports bettor, 42

This for me is a **winner**, the markets look exciting and it's **easy to follow** the game.

Shawn, esports bettor, 26
